MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Contracting Information Letter (CIL) 01-01

- 1. This CIL contains information on the requirement to remove tactical equipment from contracted activities. Reference AFLG-FMMC-E Memorandum, Subject: Requirement to Remove Tactical Equipment from Contracted Activities, 3 October 2000 at enclosure one.**
- 2. Requiring activities have been tasked to coordinate with your office to remove from the appropriate contract, any tactical equipment that may have been furnished to contractors as Government Furnished Property (GFP).**
- 3. Future requirements with GFP should be questioned to assure that tactical equipment is not provided to contractors.**
- 4. Questions concerning this CIL should be directed to Steve Hunnicutt (hunnicus@forscom.army.mil) at COMM (404)464-5691.**

3 October 2000

MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Requirement to Remove Tactical Equipment from
Contracted Activities

1. Tactical equipment shortages are common throughout U.S. Army Forces Command (FORSCOM) modified table of organization and equipment (MTOE) units. The requirement to reduce MTOE tactical equipment shortfalls precludes placing and/or using tactical vehicles and trailers in contracted operations without prior FORSCOM approval.

2. Tactical vehicles and trailers on contractor documents as government furnished equipment (GFE) will be reported, by line item number (LIN), national stock number (NSN) and quantity to the General Equipment Branch, FORSCOM Materiel Management Center (FMMC), no later than 30 November 2000. Equipment lists will be reviewed by the FMMC, in coordination with the FORSCOM Equipment Authorization Team, and notice given of tactical vehicles and trailers which must be removed from use in contracted operations. Questions concerning identification of tactical vehicles and trailers may be directed to this office.

3. Garrison Commanders are responsible to ensure that, following notification by this office, the requiring activities (contracted operations) coordinate with the local Directorate of Contracting to make certain that tactical vehicles and trailers identified for removal from current contracts are deleted at the most appropriate times. To ensure that tactical vehicles and trailers are not included as GFE in future contracts, the General Equipment Branch, FMMC, in coordination with the FORSCOM Equipment Authorization Team, will review all GFE lists prior to award of contracts. The FORSCOM Contracting Division point of contact is Steve Hunnicutt, DSN 367-5691, email hunnicus@forscom.army.mil.
